Withdrawals

Guaranteed income (Protection Package only)

Income Base: The Income Base is used only to determine fees and income payments under this package. It is not a value that can be surrendered or withdrawn.

⁵ In HI, IL and VT, initial plus additional premiums are included in this amount.
⁶ For up to 10 years or age 85 in AK, AL, ID, MN, MS, MT, OR, PA, PR and WA

- Option to receive scheduled income for life as Guaranteed Withdrawal Payments, assuming no excess withdrawals and a life-only annuity payout option is chosen at maturity.
- Withdrawal payment amount determined by Income Base at the time payments begin, calculated as the greatest of:
 - Initial premium plus 18% bonus on the initial premium only (reduced proportionally for all withdrawals; rate subject to change)
 - Initial premium⁵ increased by the Enhanced Guaranteed Minimum Withdrawal Benefit Rider rate, compounded at 10% for up to 10 years⁶ or start of withdrawal payments, whichever is first. (Reduced proportionally for all withdrawals, rate subject to change)
 - Account value (including vested premium bonus); or
 - Minimum guaranteed surrender value

Starting percentage

- When payments are turned on, the amount is a percentage of the total Income Base:

	At age 50	After age 50
If single annuitant	3.3%	Increases each year from age 51 until age 85 ⁷ (at age 85+ the percentage stays at 7%)
If joint annuitant	3.0%	Increases each year from age 53 until age 90 ⁷ (at age 90+ the percentage stays at 7%)

Increased payments for annuitants who are impaired revert to their original level if the account value is depleted OR the impairment ends.

⁷ See SOU for a full payout percentage schedule. Payout percentages in HI and IL vary.
⁸ Annuitant in AK, AL, ID, MN, MS, MT, OR, PA, PR or WA could also qualify by being in a Qualified Care Facility for 60 days.

If the annuitant meets qualifications for impairment and the account value > \$0, payments increase 2X (1.5X if joint contract):

- The Enhanced Guaranteed Minimum Withdrawal Benefit Rider has been in effect for three years; five years in HI and IL
- The annuitant is unable to perform at least 2 of 6 activities of daily living⁸, certified by a licensed physician, and requires the care of a licensed caregiver
- The impairment began at least one year after contract issue, and is expected to be permanent
- The annuitant is 60 years or older and a U.S. resident

Death benefit

Prior withdrawals reduce benefit amounts. Interest rates are subject to change. Partial index credit, if applicable, paid up to the date of death.

¹ In AK, AL, ID, MN, MS, MT, OR, PA, PR and WA payable over time death benefit is not available.

² In NC and VT, initial plus additional premiums are included in the calculation, and age is not a factor.

Enhancement Package

Paid as a lump sum, greatest of:

- ▶ Account value, including the total vesting bonus, even if not fully vested;
- ▶ Minimum guaranteed surrender value; or
- ▶ Initial premium plus vesting bonus on the initial premium only, growing at 5% simple interest for 10 years, until age 85 (older owner if joint owners) or death, whichever is first.

Protection Package

Two options:

- 1. Paid as a lump sum, calculated in the same manner as the Enhancement Package.**
- 2. Paid as payments over at least 5 years (10 if issue age ≥ 71), based on greater of:¹**
 - ▶ Minimum guaranteed surrender value; or
 - ▶ Initial premium plus 18% bonus on the initial premium only; or
 - ▶ Initial premium² plus 10% compound interest for up to 10 years, until age 85 (older owner if joint owners) or the date of death or beginning of income withdrawals, whichever is first.

Penalty-free partial withdrawals

Each contract year after year 1 may withdraw $\leq 10\%$ vested account value with no surrender charge or Market Value Adjustment (MVA). Withdrawals may be taken as:

- Systematic withdrawals on monthly, quarterly, or semi-annual basis; or
- Up to 4 non-systematic withdrawals per year.

Surrender charge percentages— for withdrawals in year 1, or withdrawals $> 10\%$ in years 2-10

Contract year	1	2	3	4	5	6	7	8	9	10	11+
All states where approved except as noted below (see state approval chart)	12%	11%	10%	9%	8%	7%	6%	5%	4%	3%	0%
AK, AL, CA, DE, ID, FL (65+), MA, MN, MS, MT, NJ, NV, OH, OK, OR, PA, PR, SC, TX, UT, WA	9%	9%	8%	7%	6%	5%	4%	3%	2%	1%	0%

Any time a withdrawal incurs a surrender charge, an MVA will be made. For withdrawals above the annual penalty free withdrawal amount for the purpose of a required minimum distribution, F&G will waive any surrender charges and market value adjustments.

The MVA is based on a formula that takes into account changes in rates since contract issuance. Generally, if rates have risen, the market value adjustment will decrease surrender value; if rates have fallen, it will increase surrender value. MVA does not apply in AK, AL, ID, IL, MN, MO, MS, MT, OR, PA, PR and WA.

For unexpected health care costs— access to vested account value with no surrender charge or MVA

¹ In AK, AL, ID, MN, MS, MT, OR, PA, PR and WA, care or confinement must begin after the contract effective date.

² Limitations and considerations may vary from state to state.

In calculating the level of the Index, the index methodology deducts a maintenance fee of .85% per year, calculated daily. This fee will reduce the level of the Index and thus the amount of interest, if any, that will be credited to any Product. Furthermore, while the volatility control applied by CIBC as part of the index methodology may result in less fluctuation in rates of return as compared to indices without volatility controls, it may also reduce the overall rate of return for products referencing the Index as compared to other indices not subject to volatility controls.
