Looking for a **guaranteed rate of return** for your retirement savings?

In the prolonged low interest rate environment we are in, it can be a challenge to find a guaranteed rate of return that meets your needs. Many Americans are turning to alternative solutions like a multi-year guaranteed annuity (MYGA) to help fill this gap.

A MYGA is a conservative option that offers you the opportunity to:

- Earn tax-deferred interest on your principal, at a fixed rate of return for a certain period of time.
- Know your interest rate upfront and that it's locked in during the guarantee period.

F&G has provided retirement products since 1959. Today, we provide annuities and life insurance for over 700,000 people across the United States. Our annuities are designed to protect your savings and provide a steady stream of tax-deferred¹ income for your retirement.

Fixed annuities including MYGAs fall under the conservative category of solutions.

This quick reference guide is intended to provide an overview of the F&G Secure MYGA (Secure MYGA). It comes with the Statement of Understanding (SOU) that explains this annuity in detail.

The SOU has product information that's important to help you understand this annuity. If you decide to complete an application, your financial professional will ask you to sign an acknowledgement to confirm you've read the SOU. If there is any conflict between this guide and the SOU, the SOU prevails.

Read on to learn how **Secure MYGA** can play an important part in your financial security.

¹ You pay taxes only when you make withdrawals and receive income in the future.

Other considerations

Access for unexpected health care costs

- Nursing home care
- Terminal illness

Access your total account value with no surrender charges. If you need nursing home care or are diagnosed with a terminal illness, you may access your total account value with no surrender charges or Market Value Adjustment (MVA). The diagnosis of terminal illness or nursing home care must occur at least one year after the contract is issued. These are defined conditions, and availability may vary from state to state.

Ability to withdraw

See the SOU for details on surrender charges and MVA.

You may withdraw your money at any time. The interest you've earned may always be withdrawn without surrender charge. Any other withdrawals made will incur surrender charges and MVA.

Surrender Charges²

Years into Guarantee Period	1	2	3	4	5	6	7	8+
F&G Secure MYGA 3	9.00%	8.00%	7.00%	0.00%				
F&G Secure MYGA 5	9.00%	8.00%	7.00%	6.00%	5.00%	0.00%		
F&G Secure MYGA 7	9.00%	8.00%	7.00%	6.00%	5.00%	4.00%	3.00%	0.00%

Market Value Adjustment³

At the end of your guarantee period, you may withdraw up to the full account value during a 30-day window.

Any time a withdrawal incurs a surrender charge, an MVA will be applied. The MVA is based on a formula that takes into account changes in the rates since the contract was issued. Generally, if the rates have risen, the MVA will decrease the surrender value; if they have fallen, the MVA will increase the surrender value.

Death benefit

Your account value is paid as a **lump sum death benefit**.

¹ You pay taxes only when you make withdrawals and receive income in the future.
² In CA, surrender charges begin at 9% and continue to decline over 10 years and do not reset.
³ The MVA does not apply in CA.

TAX INFORMATION

Tax deferral may not be available if the annuity owner is an entity, such as a business.

Withdrawals are treated as coming from earnings first (taxable) and then as a return of your premium. If you withdraw money before age 59 ½, you may also pay a 10% penalty to the IRS.

You may exchange one tax-deferred annuity for another without paying tax on the earnings when you make the exchange. Before you do, compare the benefits, features and costs of the two annuities. You may pay a surrender charge on the annuity you are exchanging, and you may start a new surrender charge period with the new annuity.
