Generate **more income** with fewer assets

A systematic withdrawal plan is a tried-and-true method for generating income in retirement. But if income is your ultimate goal, purchasing a guaranteed source of income can be more efficient. An annuity with a Guaranteed Minimum Withdrawal Benefit (GMWB) can generate more income or meet income goals with fewer assets. And it's guaranteed.

Consider Linda, who is 60 years old. She has \$100,000 earmarked for retirement income starting in 5 or 10 years. Her advisor explains that an annuity with a GWMB can generate more income than a systematic withdrawal plan from a diversified portfolio. In the example below, the GWMB generates **65% more income in 10 years** than the systematic withdrawal plan.

Assumptions:

- Annuity income is based as of July 2022 for a 60-year-old female with \$100k purchasing F&G's SecureIncome® 7 fixed indexed annuity with a GMWB. The income base rolls up 7.5% per year.
- 5.75% guaranteed withdrawal payout percentage at age 65 and 6.30% at age 70.
- Diversified portfolio assumes a 7% annual return for 5 and 10 years starting in July 2022 and a 4% withdrawal rate in the first year of income.

Not a bank or credit union deposit, obligation or guarantee	May lose value	Not FDIC/NCUA/NCUSIF insured	Not insured by any federal government agency
---	----------------	------------------------------	--

Income from the GMWB is **guaranteed for life**, meaning:

- **It's not subject to market risk**—income payments never change
- **It's duration matched**—it will last as long as you do

A fixed indexed annuity is intended for retirement or other long-term needs. It is intended for a person who has sufficient cash or other liquid assets for living expenses and other unexpected emergencies, such as medical expenses. A fixed indexed annuity is not a registered security. Even though contract values may be affected by external indexes, the annuity is not an investment in the stock market and does not participate in any stock, bond or equity investments.

The level of Guaranteed Withdrawal Payment amount is guaranteed for life as long as no Excess Withdrawals are taken. Excess Withdrawals will reduce the Guaranteed Withdrawal Payment amount and in some cases reduce it to zero, terminating the contract.

F&G reserves the right to change the roll-up rate upon restart. The roll-up rate is not to be less than the guaranteed rate of 3%. Restart is not available in all states.

Provisions and riders have limitations, restrictions and additional charges. Subject to state availability. Certain restrictions may apply.

The examples provided are hypothetical, non-guaranteed and are not an indication of the annuity's past or future performance.
