Looking for a **guaranteed interest rate** for your retirement savings?

It can be a challenge to find a guaranteed interest rate that meets your needs. Many Americans are turning to alternative solutions such as a single premium multi-year guaranteed annuity (MYGA) to help fill this gap.

A MYGA is a conservative option that offers you the opportunity to:

- Earn tax-deferred¹ interest on your principal, at a fixed rate for a certain period of time.
- Know your interest rate up front and that it's locked in during the guarantee period.

Fixed annuities, including MYGAs, fall under the conservative category of solutions. Some of the more common solutions in each category include:

Ability to withdraw

See the SOU for details on surrender charges and MVA.

Access your total account value with no surrender charges.

If you are confined to a nursing home, diagnosed with a terminal illness, or impaired and unable to complete 2 of 6 activities of daily living (ADLs), you may access your total account value with no surrender charges or Market Value Adjustment (MVA). The diagnosis of terminal illness, qualifying impairment or nursing home confinement must occur after the date of issue. Waiver requests must occur at least 1 year after issue date. These are defined conditions, and benefits and availability may vary from state to state.

You may withdraw your money at any time. Beginning in the first year, you have penalty-free access to 10% of your beginning of year account value annually during the surrender charge period. Any other withdrawals made will incur surrender charges and MVA.

Market Value Adjustment

At the end of the guarantee period, if you leave your account value in the product, it will automatically renew one year at a time with no additional surrender charges. That means you can withdraw your account value penalty-free at any time.

Any time a withdrawal incurs a surrender charge, an MVA will be applied. The MVA is based on a formula that takes into account changes in the rates since the contract was issued. Generally, if the rates have risen, the MVA will decrease the surrender value; if they have fallen, the MVA will increase the surrender value.

Death benefit

Your account value is paid as a **lump sum death benefit**.
